

Young Scholar Program

PROGRAM OVERVIEW

The HS Navigator Young Scholars Program strives to engage academically talented students with a strong desire to pursue careers in Computer Science and related areas. The program incorporates a lecture series, research exposure experiences, and networking opportunities. Participants will work on live projects on a variety of latest Information Technology field areas. It is a remote 8-Weekend online program where every weekend will consist of 2-4 hrs. webinar and labs on scheduled topics. Each student will create an online blog for progress on the provided labs.

PROGRAM GOALS

Prepare middle and high school students in a fun and educational environment. Provide a curriculum to improve student understanding of computer science and information technology.

ELIGIBILITY

In order to qualify, students must be :

- A U.S. resident
- Currently in Grade 7 or higher
- Interested in Computer Science, Technology & Engineering
- Able to access the internet (from home, or a public library)
